What Are GCSE Grade Boundaries?

Definition and Purpose

Grade boundaries are the minimum number of marks a student must attain to be awarded a particular grade in a GCSE exam. They are set by exam boards after the exams have been marked and are designed to reflect the exam's overall difficulty and the distribution of student performance.

The main purposes of grade boundaries include:

- Ensuring fairness across different exam sessions and cohorts
- Maintaining consistent standards over years
- Allowing students, teachers, and institutions to understand achievement levels

How Are Grade Boundaries Set?

Grade boundaries are not fixed before exams; they are established after the marking process. The process involves:

- Standardization: Comparing marking across different examiners
- Statistical analysis: Using the distribution of marks to set cut-offs
- Expert judgment: Considering question difficulty and overall exam performance

In 2012, OCR, like other exam boards, used a combination of statistical data and examiner input to determine the boundaries for each grade.
