Sample Practice Questions and Solutions

To illustrate the types of questions candidates should practise, here are sample scenarios:

Question 1:

A company expects to sell 10,000 units at £15 each. The current cost per unit is £9, with fixed costs of £20,000. Prepare a sales budget and a production budget assuming opening inventory of 1,000 units and ending inventory policy of 10% of next period's sales.

Solution Outline:

- Sales Budget: $10,000 \text{ units} \times £15 = £150,000$
- Production Budget:
- Sales units: 10,000
- Add desired ending inventory: $10\% \text{ of } 10,000 = 1,000 \text{ units}$
- Less opening inventory: 1,000 units
- Production units: $10,000 + 1,000 - 1,000 = 10,000 \text{ units}$

Question 2:

The actual sales for a period were £140,000, but the budgeted sales were £150,000. The actual volume sold was 9,000 units at £15 each, whereas the budget assumed 10,000 units. Calculate the sales volume and price variances.

Solution Outline:

- Sales Volume Variance: $(\text{Actual units} - \text{Budgeted units}) \times \text{Budgeted price}$

$$= (9,000 - 10,000) \times £15 = -£15,000 \text{ (adverse)}$$

- Sales Price Variance: $(\text{Actual price} - \text{Budgeted price}) \times \text{Actual units}$

$$= (£15 - £15) \times 9,000 = £0$$

Practising questions like these builds confidence and sharpens analytical skills.

Conclusion: The Value of Consistent Practice

For AAT students, mastering budgeting questions to practise Assessment 1 is an investment in both examination success and professional competence. Regular, structured practice enhances understanding of core concepts, improves calculation accuracy, and develops critical analytical

skills. Utilizing a variety of question types, embracing scenario-based exercises, and reviewing solutions thoroughly are proven strategies to excel.

As the financial landscape continues to evolve, accountants must be adept at budgeting and variance analysis, making these skills invaluable. Aspiring professionals who dedicate time to practising relevant questions will find themselves better prepared, more confident, and well-equipped to handle the complexities of real-world financial management.

In summary, diligent practice of AAT budgeting questions not only prepares candidates for Assessment 1 but also lays a solid foundation for their future careers in accounting.
