- Example of vague goal: "Improve reading skills."
- Improved goal: "Increase reading comprehension to grade level, with 80% accuracy on grade-appropriate passages."

2. Measurable Outcomes

Goals must specify criteria for success, enabling progress to be objectively assessed.

- Use quantifiable benchmarks (e.g., percentage correct, number of behaviors, time frames).
- Example: "Write a paragraph with at least five complete sentences with 90% accuracy."

3. Achievable and Realistic

Goals should challenge the student but remain attainable within the IEP period.

- Consider the student's current abilities, age, and circumstances.
- Avoid setting goals that are overly ambitious or too easy.

4. Time-Bound

Goals should specify a timeline for achievement, typically within the IEP year.

- Example: "By the end of the 2023-2024 school year, the student will independently calculate basic addition and subtraction problems with 80% accuracy."

5. Relevant and Focused

Goals should address the student?s prioritized needs and be relevant to their educational success.

Types of IEP Goals
