What Is a Lexile Score?

A Lexile score is a numeric value that indicates a reader's ability or a text's complexity. It typically ranges from 200L to 1700L, with higher scores indicating more advanced reading skills or more complex texts. For example, a Lexile score of 600L might correspond to a typical third-grade reading level, while a score of 1200L would align more closely with college-level reading.

Lexile measures help educators:

- Match students with appropriately challenging texts.
- Monitor student growth over time.
- Differentiate instruction to meet individual learning needs.
- Set measurable reading goals.

How Lexile Measures Are Determined

Lexile scores are derived through complex analysis of text features such as sentence length and word frequency. Similarly, student Lexile measures are calculated based on assessments of reading comprehension, like those provided by Achieve 3000, Renaissance Learning, or other standardized tests.
