## Understanding the Triangular Prism

### What Is a Triangular Prism?

A triangular prism is a three-dimensional geometric shape with two congruent triangular bases and three rectangular lateral faces. It resembles a "box" with triangular ends. The key features include:

- Two parallel triangular bases
- Three rectangular faces connecting corresponding sides of the triangles
- Six edges and five vertices

### Components of a Triangular Prism

To effectively calculate the surface area, understanding the components of a triangular prism is crucial:

- Triangular bases (top and bottom)
- Rectangular lateral faces
- Edges and vertices

## Calculating Surface Area of a Triangular Prism

### Formula for Surface Area

The surface area (SA) of a triangular prism is the sum of the areas of all its faces:

$$\text{SA} = 2 \times \text{Area of triangle} + \text{Area of three rectangles}$$

Expressed mathematically:

$$\text{SA} = 2 \times \left( \frac{1}{2} \times \text{base} \times \text{height of triangle} \right) + \text{perimeter of triangle} \times \text{length of the prism}$$

Breaking down the formula:

- Calculate the area of one triangular base
- Find the perimeter of the triangle
- Multiply the perimeter by the length (height) of the prism for the lateral surface area
- Add the areas of the two triangles

## Step-by-Step Calculation Process

- Identify all dimensions:

- Base length of the triangle
- Height of the triangle
- Length of the prism (distance between the two triangular bases)
- Lengths of the sides of the triangle (if needed for perimeter)

- Calculate the area of one triangle:

$$\text{Area}_\triangle = \frac{1}{2} \times \text{base} \times \text{height}$$

- Calculate the perimeter of the triangle:

$$\text{Perimeter} = \text{side}_1 + \text{side}_2 + \text{side}_3$$

- Calculate the lateral surface area:

$$\text{Lateral area} = \text{Perimeter} \times \text{length of the prism}$$

- Combine all parts for total surface area:

$$\text{Surface Area} = 2 \times \text{Area}_\triangle + \text{Lateral area}$$
