A flipped classroom inverts conventional teaching paradigms. Traditionally, teachers deliver lectures during class time and assign homework for reinforcement. Conversely, a flipped classroom requires students to engage with new material outside of class—via videos, reading assignments, or study guides—and then use class time for discussion, problem-solving, and applying concepts.

The Role of Study Guides in Flipped Learning

Study guides serve as navigational tools, providing structured outlines, key concepts, and review questions that help students understand and retain material. When integrated into a flipped model, these guides become vital, guiding students through pre-class preparations and reinforcing learning during class activities.

The Emergence of Novel Units in Flipped Study Guides
